How does SupplyPoint support Inventory Management?

Providing controlled point of use availability of items across multiple company operations

Accountability, Availability, Accessibility and Control- Is that your Problem?

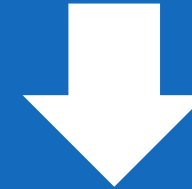

- ▶ Who has issued?
- ▶ What Item, for which job, which Machine and how many?
- ▶ Excess Stock for the items least required?
- ▶ Stock out of items most used?
- ▶ Stores shutdown – Availability?
- ▶ Issued Packets for 1 or 2 pieces?
- ▶ Unmatched Physical Vs Actual Stock?
- ▶ No quick access to stock reports / Issue reports / New order reports ?
- ▶ Unable to trace products?

SupplyPoint is a solution to all the problems above!

SupplyPoint 5S for Inventory Management

Before

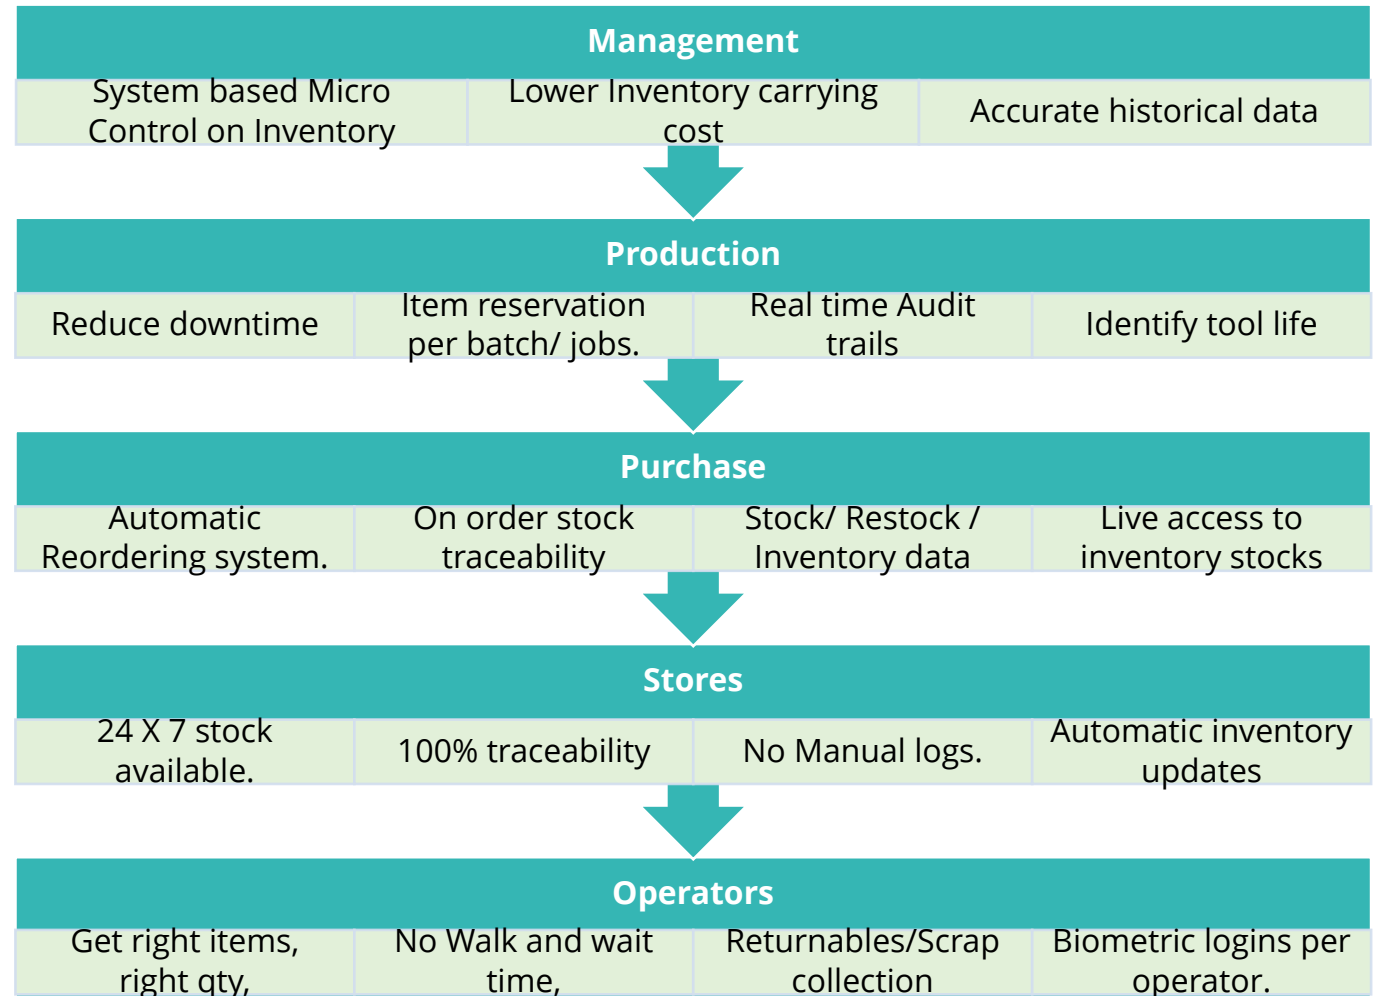

After

Make Inventory Smart & System Driven

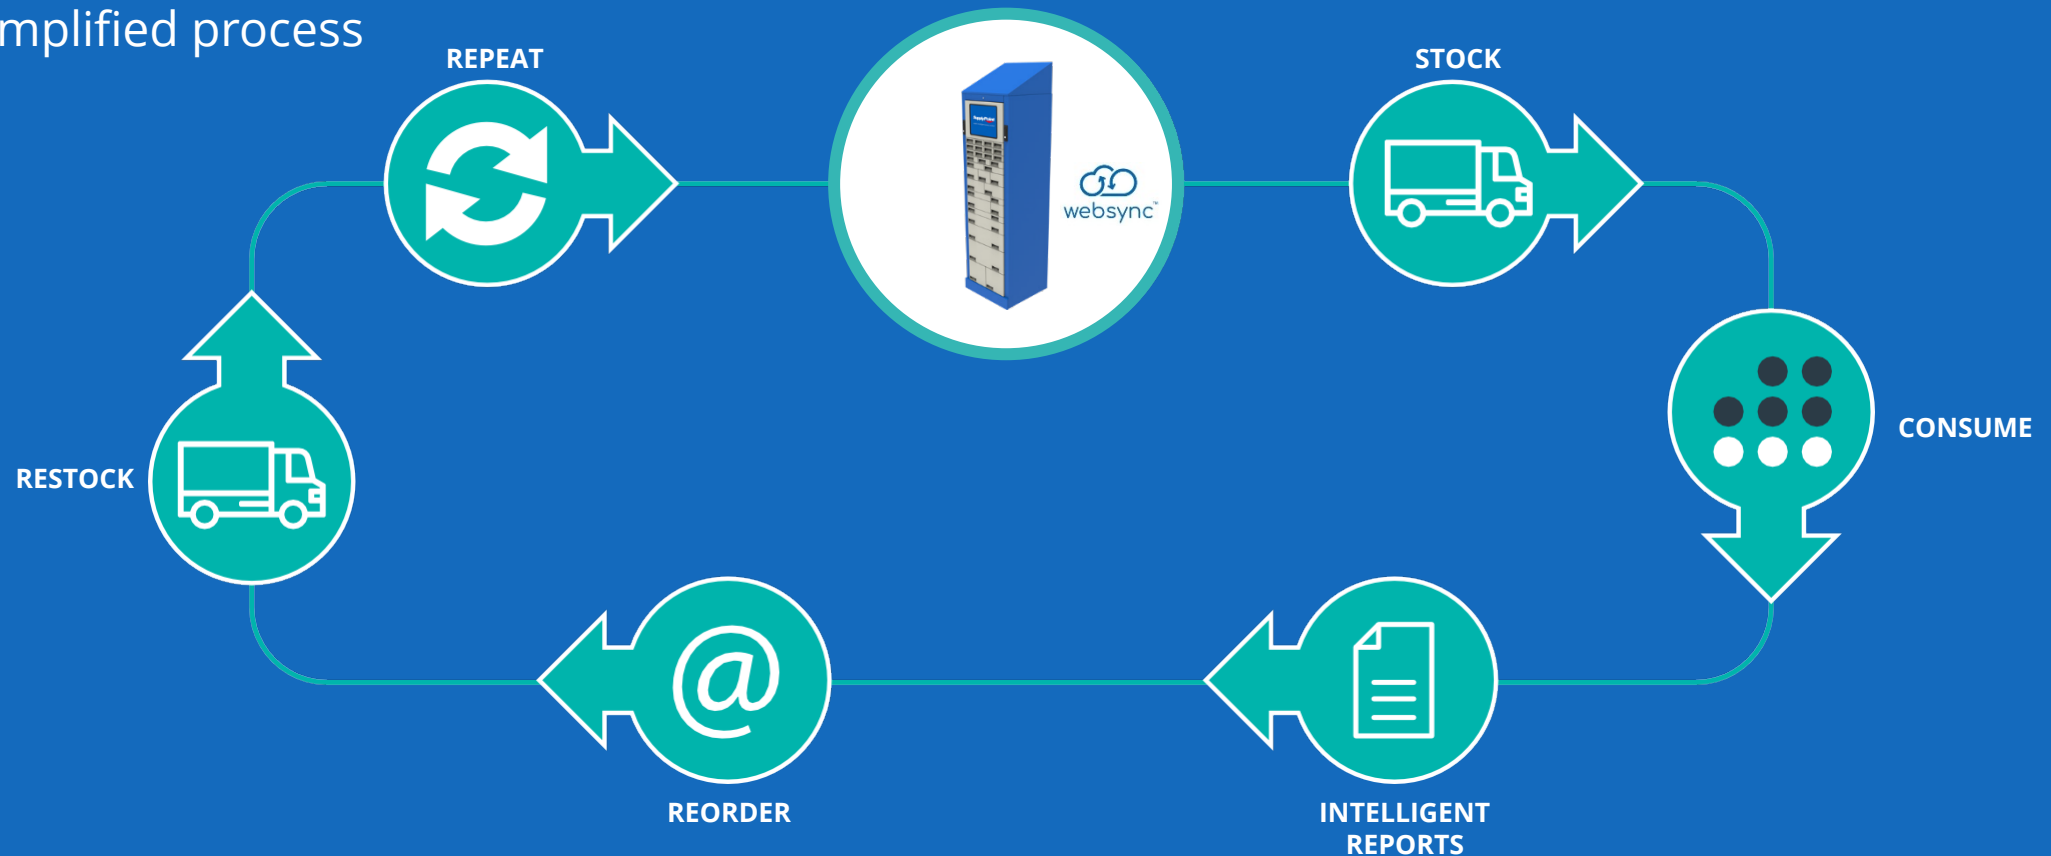

- ▶ Point of use solutions –Allocate the resources (inventory) to respective area, manage stocks and control the usage.
- ▶ Get connected to operators/end users, in different hierarchies.
- ▶ Pre-plan your operations and reserve the items.
- ▶ Manage fast moving items on assembly lines.

IN CONTROL

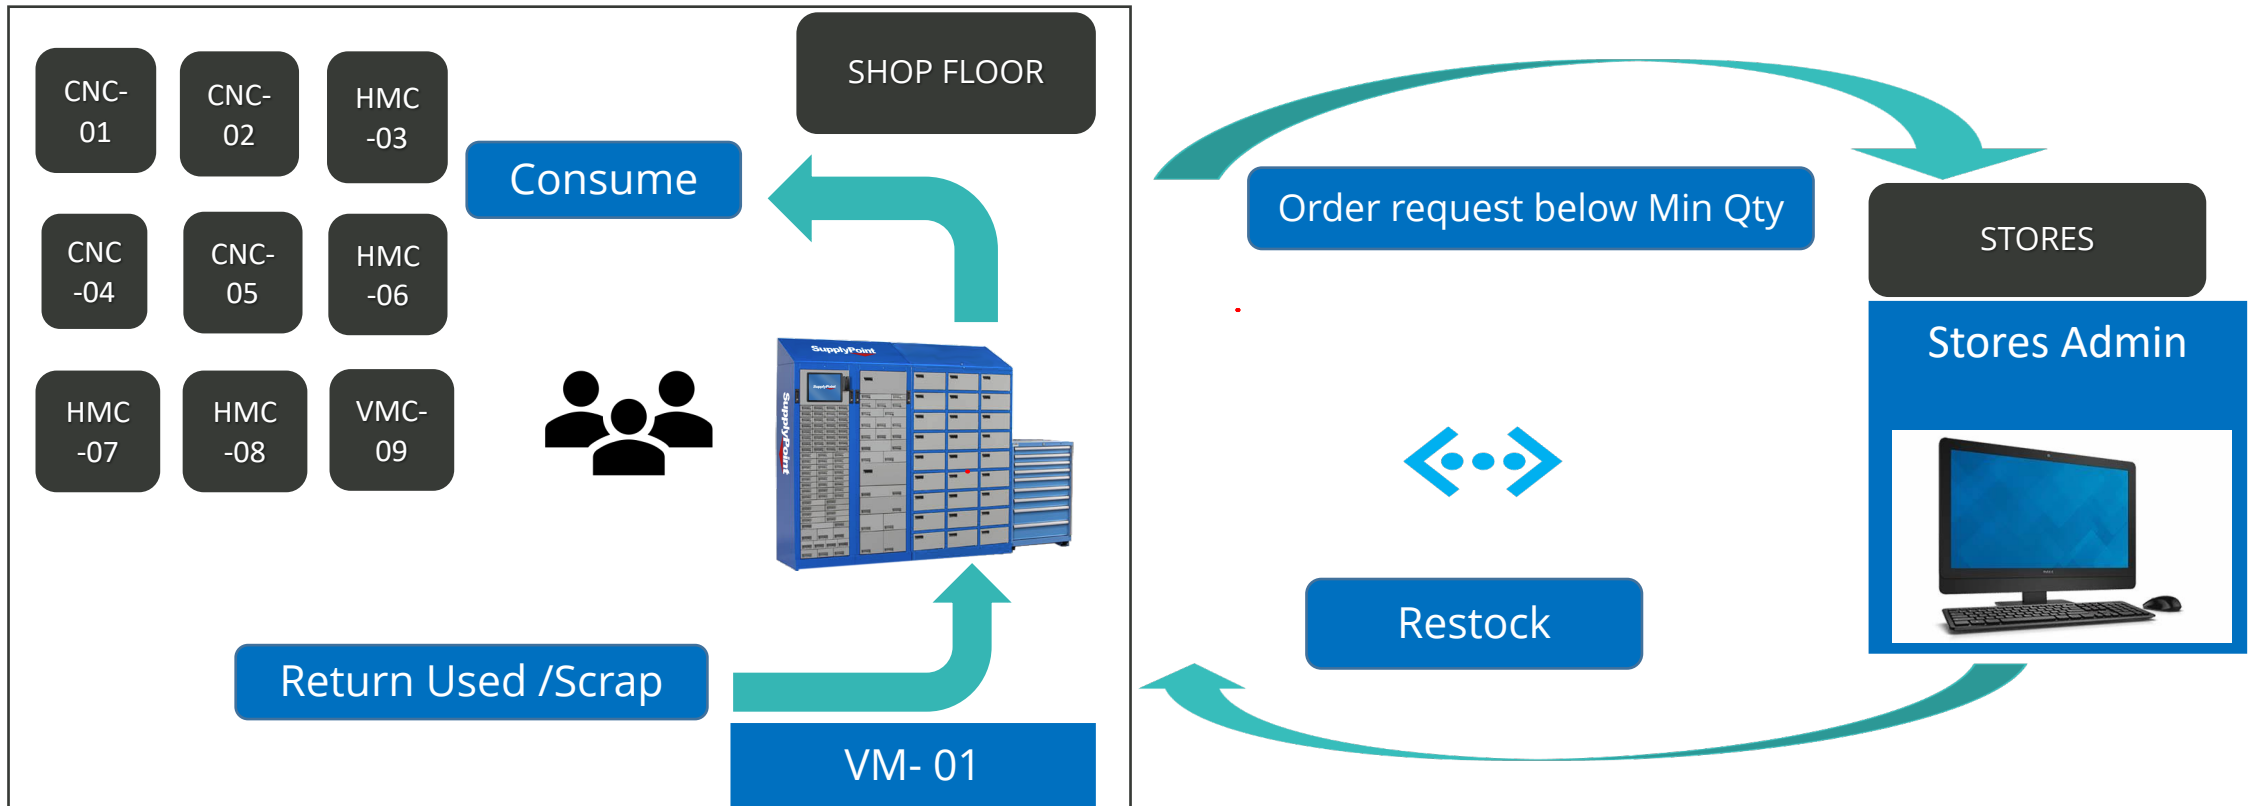

Intelligent Inventory Process

- ▶ Automatization of product ordering & replenishment
- ▶ API integration with ERP/SAP Systems
- ▶ Simplified process

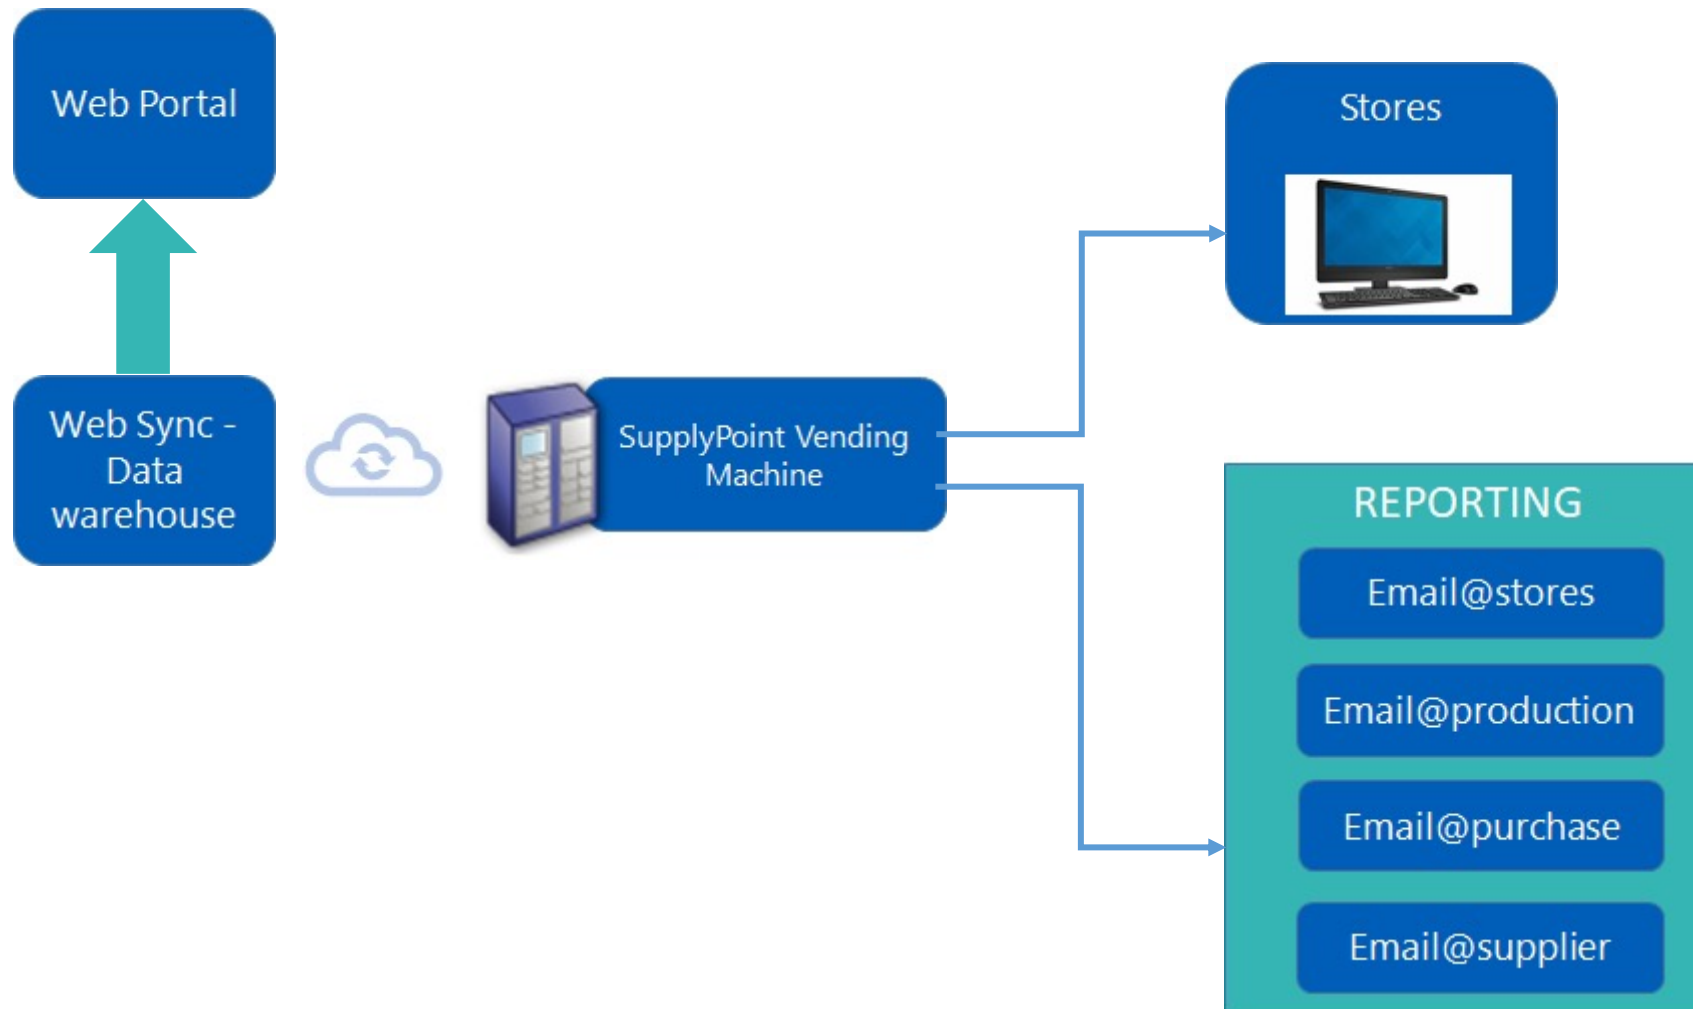

Synchronised Production – Stores Internal

- SupplyPoint VMI can also manage stocks in external locations

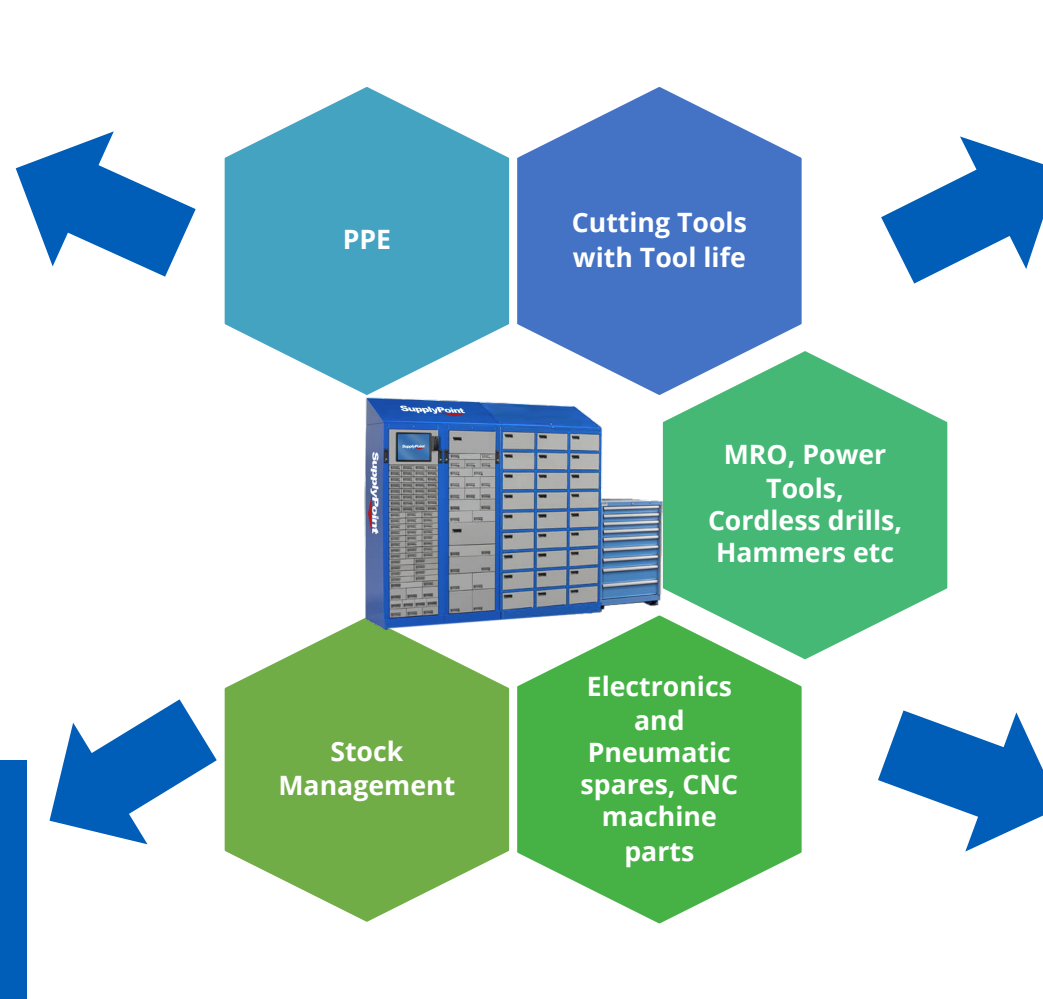

Information Flow

- ▶ Upload the data on the Vending machine.
- ▶ Connect to the internet
- ▶ **Sync data** on Vending machines to LAN to client computer at Stores.
- ▶ **Email transmission settings** - Direct emails from Vending machines.
- ▶ Subscribe to the **web portal** and connect your vending machines online.
- ▶ Access, control and manage the data from anywhere in the globe.

Smart Systems for Smart Factory

- ▶ Cutting Tools, Inserts, drills, end mills.
- ▶ CNC Machine Spares
- ▶ Spindles and spindle setup Kit
- ▶ Torque Tools – Wrenches, Drivers, Ratchets
- ▶ General tooling – Hammers, Screwdrivers
- ▶ Measuring instruments – Gauges, Verniers
- ▶ Keys – Vehicle, External stores, Forklift
- ▶ Electronic items e.g. tablets, cordless drills/drivers
- ▶ Other (Avionics, Special Equipment).
